

SVS BROWN SHIPLEY CAUTIOUS FUND

Factsheet to 31 May 2025

Fund Objective

The Fund aims to achieve growth through a combination of capital and income over the medium term (at least five years). The Fund will invest, directly and indirectly, in a mixture of shares and fixed interest securities (being sovereign, investment grade and non-investment grade bonds). The allocation between the shares and fixed interest securities in which the Fund invests will be actively managed and will vary in response to short term market conditions. However, the Fund operates a cautious strategy, meaning that the allocation to shares, will remain within a 0% to 35% range. The Fund excludes issuers that derive more than 10% of revenue from thermal coal extraction or power generation, those that are involved in controversial weapons, issuers subject to EU arms embargoes and those that are deemed in violation of the UN Global Compact principles for over 3 years. In addition, the Fund integrates environmental, social and governance (ESG) factors in its investment process.

Commentary

Whilst risk assets generally had a good month, investor uncertainty remained elevated as developments in US trade policy continued to be very fluid. Progress in trade negotiations between the US and Europe helped sentiment, whilst a temporary delay to previously announced tariff increases by the Trump administration supported markets. US consumer sentiment also improved over the month. Stock markets overall had a strong month with developed markets leading their emerging market peers. US stocks in particular performed well, with 'growth' as an investment style outperforming 'value'. Fixed income markets also reflected the risk-on tone, with high yield and emerging market debt leading the gainers. US government debt struggled, however, following Moody's credit rating downgrade.

valuations, and the defensive nature of the market. At the same time, we reduced exposure to US equities given demanding valuations.

In fixed income, we reduced US treasuries on the back of fiscal concerns and added to UK government bonds. We expect to see UK interest rates fall further than US rates (supporting UK government debt), and also see UK gilts benefitting from tighter fiscal policy going forward.

Overall, with uncertainty in markets and the global economy continuing to linger, we maintain a diversified allocation across asset classes and regions to help mitigate overall risks in the portfolio.

Over the month, there were a number of changes to the portfolio. We increased our allocation to Japanese equities in response to attractive valuations, strong growth fundamentals and ongoing corporate governance reforms in the region. We also added to UK equities, supported by strong dividend yields, compelling

The Investment Association sector is used in the above graph for comparative purposes only. This comparator benchmark has been chosen as it best reflects the asset allocation of the Fund and as it provides a direct peer group comparator for SVS Brown Shipley Cautious A Acc.

Past performance is not a guide to future performance. The value of your investments represents the cumulative effect of all of the underlying investments and can fall as well as rise. The value of an investment or any income received from it, is not guaranteed and you may not get back some or all of the amount invested. Investors should seek tax advice to understand their personal liability for investment income and/or gains. This will depend on their personal circumstances and the prevailing tax rules, which are subject to change. Please refer to the Key Investor Information Document and the fund prospectus for further fund information.

29 July 2014	42	£10.79 m	01 Dec, 01 Mar, 01 Jun, 01 Sep	31 Jan, 30 Apr, 31 Jul, 31 Oct

*Net Historic Yield on current portfolio constituents, net of fees as at 31/05/2025. Fees taken from capital.

†The ongoing charges figure is based on the last year's expenses (ending 29/02/2024) and may vary from year to year. The transaction fee is paid by the fund due to the acquisition and disposal of investments.

Investment Risks - The fund balances equity investment risk with exposure to Sovereign and Corporate bonds. Exposure is gained through investment in other funds whose individual risk profile may not match that of the Cautious fund, while exposure to UK markets is generally through direct equity holdings. Bonds are affected by the relative movements in interest rates, and the risk of default by the sovereign or corporate issuer. Global currency fluctuations contribute to fluctuations in the value of the investment. Investment Trusts and Structured Products do not represent significant holdings but where used carry specific investment risks; with structured products there is a risk of insolvency of the underlying issuer, while Investment Trusts may borrow to investment and, where borrowing is used, the gains or losses in those underlying investments are exaggerated. Please refer to the Key Investor Information Document and the fund prospectus for further information.

Distribution and Fund Administration

This document is provided to investors for the purpose of information only. It is not for onward distribution to any other type of client. The views, opinions and forecasts are those of the fund manager. This material should not be relied upon as sufficient information to support an investment decision. This material is for information only and does not constitute an offer or solicitation of an order to buy or sell any securities or other financial instruments, or to provide investment advice or services. The dealing price may include a dilution levy where the fund experiences large inflows and outflows of investments. Further details are available in the Prospectus.

Portfolio positions are based on gross asset valuations at global close (not official NAV time). Historic yields distributions declared over the past 12 months. The portfolio data on this factsheet is updated on a monthly basis. SVS Brown Shipley Cautious Fund is a sub-fund of SVS Brown Shipley Multi Asset Portfolio.
